and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I might add one observation. When you helped us by breaking apart the bell telephone company, all these little companies then could make their own company and charge what they wanted. You have destroyed customer service for the public. My closes place to get customer service for my home phone is Rancho Cordovia, California. This is just to the north east of Sacramento, Calif. This is my local phone company. Course all the good old necessary charges are still their and are outrageous. This is what you want to do to the cellular system also. Please, Dont help us. If it aint broke, dont try to fix it....

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Leonard Hume
